

Biomass to bio/E-methanol by Breakthrough SOEC-based Process: the BeBOP innovation

Funded by
the European Union

Funded by the European Union. This project has received funding from the European Union's Horizon Europe research and innovation programme under the Grant Agreement no. 101178117. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or European Health and Digital Executive Agency (HaDEA). Neither the European Union nor the granting authority can be held responsible for them.

BeBOP is a European project granted under Horizon Europe framework programme. It aims to industrially deploy a disruptive, digital process-intensified, ultra-high resource efficient and flexible biomass power-to-methanol plant, that can transform the chemical sector, while showcasing a first-of-its-kind complete TRL6 pilot plant, ready to be scaled-up and replicated by the European biomass-based industry.
